Why to Choose Blackview MP60?

Efficiency Upgrade ↗

Storage Upgrade ↗

Entertainment Upgrade ↗

Convenience Upgrade ↗

Superb Heat Dissipation

More Smoother, More Fluidity

Blackview MP60 dedicates the CPU to thermal solutions with a newly designed large-windowed cooler fan to ensure maximum performance. With a fan speed of 5600 rpm and heat dissipation area of 25500mm², the fan will always keep MP60 host at 95°F. An efficient cooling fan will make the system more stable and the CPU life longer.

 **5600rpm**

 **Less Than 95°F
< Human Body
Temperature**

 **25500mm² Heat

Noise Reduction Design

Always Quiet, Sleep Undisturbed

Does the noise interrupt your thought? Blackview MP60 has a built-in noise-canceling radiator that will reduce noise to less than 38 dB, which is quieter than the noise value of 40dB in the library, providing a comfortable environment that allows you to be more productive.

4K Ultra HD Display

Exceptional Visual Feast

Blackview MP60 supports 4K Ultra HD graphics, with four times the pixel count of 1080p, capturing more details on the screen to look lifelike, giving you an ultimate visual experience.

4K 60Hz

Intel UHD Graphics

Dual HDMI Ports

Doubled Productivity

Equipped with dual HDMI ports, Blackview MP60 allows for simultaneous dual-screen operation via HDMI Port, doubling the efficiency of office and entertainment.

2 HDMI Ports

Various Interfaces

More Connectivity, More Possibilities

Equipped with various interfaces, Blackview MP60 has compatible with more than 90% of mainstream peripherals. Headphones, mice, keyboards, and other devices can be connected at the same time. More importantly, MP60 works well with surveillance cameras, projectors, printers, monitors, and TVs.

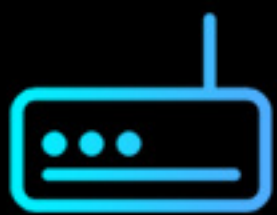

Reliable Wireless Support

Keep You Well Connected

Thanks to 2.4G and 5G dual-band WiFi, Blackview MP60 enables fast wireless transmission with mobile devices. With Bluetooth 4.2 capabilities, MP60 is widely compatible with Bluetooth-enabled equipment. Ultra-fast network connectivity with up to 1000Mbps high-speed transmission speed, freeing you from the confines of a network cable for a better experience.
